Sutter Creek Among Progressive Ranks

County superintendent of schools, W. H. Greenhalgh, and F. A. Ball, principal of the Sutter Creek grammar school, met with the Woman's improvement club high school committee, at the residence of Mrs. Bayliss C. Clark on Monday evening last, and discussed the ways and means of conducting the coming campaign for the high school.

A mass meeting has also been called, and will be held in Sutter Creek on the 13th of October. Many prominent-speakers will be called on to address the meeting from various towns throughout the county. And leading educators from different parts of the state will be on hand to urge the proposition.

After the mass meeting, a grand ball will be held for the purpose of raising funds to defray the expense necessarily incurred by the campaign.

Many interesting ideas were advanced on the kind of a high school best suited for the practical education of the children of this county.

A polytechnic high school seemed to be the most favored by the committee considering the matter, including a business course for the students. This important question is to be decided by the trustees of the coming high school.

JACKSON CITY ITEMS

Local Happenings About Amador's County Seat

Miss Loretta Meehen is confined to her bed for several days on account of sickness, and a trained nurse has been sent for.

Jackson's military band delighted the county seat with a fine concert on Sunday evening that was greatly enjoyed by a large crowd which assembled on Main street.

Louis Girnonnii, who resides at 16 Stadel Ave., has improved the property greatly by a fresh coat of paint.

The swimming pool on the top of Peek hill has been suppressed. The move was organized by the boys, but the patrons were too careless and the thing speedily degenerated into a nuisance.

Mrs W. D. Dufrene, accompanied by her daughter Winnie, and little grandson Clyde, returned home Sunday evening, after having spent several weeks visiting relatives and friends in Sacramento, San Francisco, Oakland and Stockton.

McGary has a large line of fine dress goods to select from.

Carlo Giovannoni and his attorney, R. C. Bole, and the expert of the board of trade who has been taking an inventory of the assets of the Giovannoni firm, left yesterday morning for San Francisco, where a meeting will be held to arrange a settlement if possible.

John S. Davis has been working in Jackson and vicinity all the week in the interest of his candidacy for sheriff. He is making friends by his quiet but effective work.

Miss Hilda Clough came up from the city early this week and accompanied her mother, who has been stopping at her daughter's, Mrs. Liverledge, at Pine Grove for the benefit of her health, to the coast.

J. F. Wilson, Dentist. Hours 9 a. m. to 5 p. m. Phone—Office, Main 75; residence, black 394; Jackson.

Taking Inventory

Taking an inventory of the stock in the Giovannoni store was completed by an agent of the board of trade of San Francisco in the interest of the creditors this week. A few days were taken up thereafter in figuring up the result. With this completed the agent, with the head of the closed firm—Carlo Giovannoni—will go to the city when some decisive action will be taken.

Methodist Church Makes Appointments

The appointments made by the Methodist Episcopal church conference at Pacific Grove this week affecting Amador county, are as follows:

Sutter Creek and Amador City—C. H. Easterbrook, returned.
Ione—L. P. Walker.
Jackson—J. C. Duncan.
Pine Grove and West Point—T. H. Wall.

All the appointees are expected to reach their respective charge so as to be able to conduct services the coming Sunday.

Improving Nicely

Mrs W. S. Thomas was stricken seriously ill on Saturday last, and as a result was confined to her bed. Dr. Gall was summoned, and prescribed for the patient, who was suffering with a severe cold. The patient is improving nicely, and is able to be about again.

Goodman Breaks Leg

Dr. P. S. Goodman, met with a serious mishap which came near being fatal on Sunday night, about 9 o'clock. The doctor was hurrying from Bunker Hill in answer to a summons, and while going down the big hill just back of Amador, the brakes to his automobile failed to respond, and the machine ran away throwing the doctor out with such violence as to break his leg.

A passenger who was with Goodman was also thrown out, but escaped injury.

THE DELECTABLE LICENSE BUSINESS

The mix-up of remission of liability for back licenses of John Ratto and W. H. Glenn, and granting of free licenses to them for future protection against any demand on the part of the license collector, has made little headway toward unravelment during the week. The grant of freedom is attempted to be bolstered up by this clause in the license ordinance as passed by the board of supervisors.

Sec. 16. The board of supervisor of the county of Amador shall have the power to order a free license issue to any person who may apply therefor, whenever in their judgment the same may be necessary to enable any applicant who may be poor and unable to pay his license, to earn a livelihood.

What this joker was injected into the revenue ordinance for we know not. It is about on a par with lawmakers of the state injecting into a penal statute a provision to the effect that the legislators reserved the right to make a certain criminal offense not a crime whenever in their judgment the offender was entitled to such merciful intervention. If boards of supervisors are granted power to monkey with ordinances of their own making, so as to build up a system of favoritism, it is about time the people of Amador were made acquainted with the fact. We do not believe the clause imparts to the board any authority of the kind nor is any instruction based on such clause of any binding force upon officers charged with the enforcement of revenue laws. Supervisors are empowered to pass ordinances not in conflict with state laws, and they can amend or repeal them, but with these acts their authority in the matter is exhausted. They cannot say to the collector, "Collect the license tax in this case, and don't collect in that case," according to their whims and personal feelings, whether backed with an application from the individual to be favored or not. In Sutter Creek at the present time the anomaly is presented of one showman claiming exemption from license by the grace of the supervisors, and another showman in the same business being made to pay \$10 per week for the privilege of running his show.

It is vital to the welfare of Amador county to find out definitely whether such proceeding will stand the test of the courts. In this spirit the editor of the Ledger waited upon the district attorney last Wednesday and inquired if he had looked up the law on the subject, and what action could be taken to recover the back licenses from Ratto, estimated at \$500, and also to compel him to pay the prescribed license in the future. He said he was prepared to make a criminal complaint, or start civil suit to determine the issues involved. The legal adviser waxed angry, and declined to take any action whatever. He claimed that no individual taxpayer but only the board of supervisors, could require him to act in such proceedings.

So that the remedy for the injustice herein stated must be sought elsewhere. We may say that the matter is by no means settled by this rebuff. It is simply clearing the way for other action. To grant a free license to the other showman will not meet the issue. He is oppressed not by paying his license tax, but by the favoritism shown the other by not demanding payment from him. We want to know whether we have got a county worth living in from a governmental point of view. And we are going to find it out if possible.

It is vital to the welfare of Amador county to find out definitely whether such proceeding will stand the test of the courts. In this spirit the editor of the Ledger waited upon the district attorney last Wednesday and inquired if he had looked up the law on the subject, and what action could be taken to recover the back licenses from Ratto, estimated at \$500, and also to compel him to pay the prescribed license in the future. He said he was prepared to make a criminal complaint, or start civil suit to determine the issues involved. The legal adviser waxed angry, and declined to take any action whatever. He claimed that no individual taxpayer but only the board of supervisors, could require him to act in such proceedings.

Farewell Party

A pleasant farewell surprise party was tendered Misses Helen and Winnifred Nicholas, daughters of the Rev. and Mrs. Thos. H. Nicholas of the Jackson Methodist Episcopal church, at the parsonage on Church street last week.

A large crowd of young friends assembled at the parsonage about 8 o'clock, and were entertained with music and refreshments, consisting of ice cream, cake and candy.

Those present were: Rose Yolo, Gertrude Green, Inez Tam, Julia Fopiano, Laura Parker, Marion Calvin, Lionel Harris, Lloyd McPherson, Grant McPherson, Hazel Quirrollo, Leslie Lepetich, Arthur Maloney, Robert Kerr, Jesse McLaughlin, Frank Cuneo.

The party continued in its merriment until midnight, when a fond farewell with best wishes were extended to the young ladies, who will shortly leave Jackson for Marysville, Yuba county, to which place their father has just received an appointment.

JOHNSON GETS FINE WELCOME

Brilliant Orator Holds Hearers Spellbound With Speech

(By W. S. Thomas)

Jackson was unusually active on Tuesday morning last, as a result of the announcement that the republican candidate for governor was to visit Amador's county seat, and deliver an address. Dr. Schacht and Ed. Kay, two hardworking, as well as loyal republicans, were busily engaged early in the day, making final arrangements for the proper reception of so distinguished a visitor.

A large American flag was draped beneath the National hotel balcony, forming a beautiful background, and large portraits of president Taft and vice president Sherman were attached to the flag. The porch in front of the hotel was used as the rostrum from which the brilliant orator delivered an address fired with such patriotism and sound doctrines as will forever live in the memory of those who heard him.

On the pillars of the porch were tacked portraits of the next governor, the balcony pillars and front of the building were profusely decorated with small American flags.

The Volcano stage brought a full load of passengers, representing all the leading politicians from the upper part of the county, democratic as well as republicans, and the Plymouth and other stages all carried crowds, who were bent on hearing the peerless orator declare his policies.

Other teams from all over the county came into the town throughout the morning completely crowding all the local liverys.

Benches had also been supplied and were placed in the street facing the hotel, all of which were crowded with men, women and children of every political faith. The large automobiles bearing the party had a delightful ride in the trip from Plymouth to Jackson. Plymouth was reached on scheduled time at 10 a. m., and after a short address, the cars rolled on towards Jackson, stopping at Drytown, Amador, Sutter Creek, enroute, and speaking at each place.

At half past twelve, the party consisting of three automobiles were brought to a halt at Main street bridge in north Jackson, by Dr. A. M. Gall, chairman of the Amador county central committee, and Dr. Schacht, who welcomed the party to our city.

Jackson Military band had also assembled there, fully uniformed and at a given signal. The band struck up "Rally Round the Flag," and "Marching through Georgia," and the march down Main street was made. The band halted in front of the National hotel, and continued their music, while the party disembarked from the cars.

The entire party took dinner at the National hotel, a special dinner being served for the guests. The table was also beautifully decorated for the occasion with flowers.

The first automobile carried Hiram Johnson, the candidate, and his son, Hiram junior, who is familiarly known as Jack, and who pilots the car, John F. Neylan, press representative of the San Francisco Bulletin, and W. Russell Cole, representing the San Francisco Call, C. H. McKenney of Sutter Creek, and J. W. Caldwell of Jackson. The second automobile carried Edgar Deacon, Leon Stinson John Davis, Webb Smith and Fred Werner, and the third auto carried Alex Gordon, candidate for railroad commissioner from this district, Paul Herriott, press representative of the San Francisco Examiner, followed the party in a team.

Attorney Wm. Snyder opened the meeting promptly at 1:30 o'clock, and presented the Hon. Fred V. Wood as president of the meeting, and the following vice presidents all of whom were present, and seated on the porch from which the address was delivered:

W. P. Peek, J. H. Langhorst, A. Ginochio, B. F. Taylor, L. Vogeli, R. Webb, Wm. Tam, R. Rugne, John Wiley, Rev. Father Wm. Laffan, Jos. Datson, Chas. Meek, C. B. Arditto, P. L. Cassinelli, Jos. Gluckfelt, Jos. D. Mason, F. W. Parker, R. S. Rainsford, T. Lemin, Henry Marre, C. M. Kelly, Frank Valvo, Fred Eudey, Webb Smith.

Judge Wood said: Friends and fellow citizens, I consider it an honor in being chosen to preside over this assembly.

THE SHERIFF'S BIG SALARY LIST

Few in Amador county have any idea of the amount of money that has been drawn by U. S. Gregory, the present incumbent of the sheriff's office and candidate for reelection, from the county treasury and other sources on account of the emoluments of office. It is natural for a man to want to hold on to a fat job as long as he can, and no official can be censured for receiving all that is coming to him under the law. If he is paid too liberally for his services, that is somebody else's lookout more than his. At the same time, a monopoly of a good thing in the way of office-holding should not be encouraged.

U. S. Gregory was elected sheriff for the first time in 1892, and took his office in January, 1893. He has been a candidate for re-election on the democratic ticket at every election since, and has held the office continuously ever since, with the exception of one term of four years, when defeated at the polls by T. K. Norman. So with the end of the present term he has held this office for fourteen years. A close examination of the record shows that during this time he has drawn from county treasury as follows:

Salary as sheriff, 14 years, at \$4250 per year	\$59,500
Salary as tax collector, \$500 yr.	7,000
Commissions, etc., as license collector	7,732
Traveling expenses, board of prisoners, etc.	12,391
Total	\$86,623

This is a fairly good haul for one man from Amador taxpayers, but it is not all of the official emoluments. The sheriff is paid \$5 per day and traveling expenses for conveying prisoners to the state prisons, and compensation taking insane persons to the asylums. He also collects fees for serving papers sent from outside the county, and also commissions in insolvency and other matters. We have no means of ascertaining definitely the amount of income from these sources, but believe we shall be within the mark in estimating it at \$1,000 per year, average. This gives a total income of \$14,000 for the entire period. Added to the amount from the county we have the grand total of \$100,623, with four months revenue, outside of salary, yet to be counted.

Isn't it high time to give another man a chance judging from this viewpoint.

Expresses His Opinion

Editor Ledger—Your criticism of the board of supervisors was certainly to the point. Everybody this way is now saying that the supervisors are up against it sure this time; also the sheriff for his insult to the press representative before the board.

Mr Gregory is a servant of the people, and in no way whatever had he the right to make the remarks he did while in the performance of his duties. It looks like a sure case that some one has shown and is showing favoritism. Certainly the board of supervisors may wake up some day in the near future and find that they have been asleep; that its up to them now to redeem themselves and the promise they gave when they ran for office that would do all in their power to give the "people a square deal."

I had a very interesting talk with the manager of Richards electric theatre, and he said there must be something wrong somewhere, as after the decision of the board of supervisors clearing Mr Ratto from paying licence, and right after the meeting the sheriff came to Sutter Creek and collected the first week \$10 and the second week another \$10. This seems an unjust piece of business. In closing the manager of Richards theatre said he has made a protest in paying \$10 for a license, because of the fact that Ratto is coming to Sutter Creek to start a show in opposition, and if he can show free and Mr Richards not, why then Mr Richards will certainly have to close up shop.

Mr Richards wants it known that he is no tax dodger, that he is willing to pay his share. That since he started his new place in Sutter Creek, he has had only four nights which were advertised two weeks that gave vaudeville performance, that he is willing to pay the county for that—but \$20 license is outrageous under the circumstances. Mr Richards thinks that some-one has made a mistake and at the next meeting of the board matters pertaining to this question will be settled satisfactorily to all parties. Yours for a square deal.

MINE NEWS ALONG LODGE

Interesting Accounts of Mines Located In Amador Co.

Kennedy

They are cutting a station at the 3450 level, preliminary to opening up another working level at this depth. With the sump the shaft is down 3550 feet perpendicular depth. Last week a machine drill sharpener was started, and works to a dot. It is a big job to keep machine drills in good working order for 100 stamps, employing 200 men. By the new device—which by the way is the only one of its kind in the county—the output is 60 drills per hour. And the machine sharpened drills have the advantage of being of uniform size, which is also an important factor in actual working.

Bunker Hill

Grading for the additional 20 stamps is about completed. Material for machinery and building is being accumulated on the ground, and it is expected that the stamps will be pounding away by the first of the year. The 1950 level is being pushed in as fast as possible. Some trouble has been encountered here on account of the extraordinary increase of water, which indicates the presence of open or porous ground.

South Eureka.

This mine is looming up as likely to take the first position among the dividend-paying mines of the county. The clean-up of the past month is reported as phenomenally large—in the neighborhood of \$90,000 for the 60 stamp mill. Probably an extra effort was made to secure an exceptionally good clean-up, on account of the temporary suspension of the mill soon to enable necessary repairs being made to the shaft, a work that will require several months to complete. It is the intention to continue the payment of dividends at the rate of three cents per share during the period of the mill's idleness, and the surplus in the treasury was augmented by the big clean-up so that there should be no stoppage of the monthly distribution to the stockholders. It is reported that another streak of high-grade ore has been discovered, making the outlook very favorable.

Defender

This mine was started up again the first of the month on rock from the 100 foot level. Both mine and mill had been idle for many months. It is working a small force of men, but is more than paying expenses. The shaft is down 300 feet, and levels opened at that depth, but the machinery at present on the mine is unable to cope with the water and do the other work. More powerful machinery must be installed. Mr Joyce, who has charge of the property, and who is one of the principal stockholders, is operating on a small scale, until something definite is decided upon. There is said to be a good ore body at the bottom of the shaft, and the utmost confidence is expressed that with adequate equipment it would prove a good paying mine.

Central Eureka

This property is advancing again to the dividend paying position. A fine ore body has been encountered in the 2300 level. The ledge is supposed to be identical with that worked in the old Eureka mine in its bonanza days. It is east of the shaft. Preparations are being made to put the mill in readiness for crushing ore. An assessment of four cents has been levied upon the capital stock, which it is thought will carry the company through to the paying standard, as this will realize 16,000. The stock has stiffened in price; from 80 cents two weeks ago it has advanced to \$1.05, with little to be had at such figures.

Services Well Attended

St. Augustine's church was crowded to its capacity on Sunday evening to hear the rector Thos Shea. This was an elegant opportunity to hear the Episcopal minister for the faithful who attend the Methodist services, as their pastor, the Rev. Nicholas, is at Pacific Grove, attending the annual conference held there.

Both the parishes at Jackson and Sutter Creek are reported to be in flourishing conditions under the head of the new clergyman.

THE TAX LEVY.

The tax rate of \$1.85 on each \$100 of taxable property as against \$2 on the \$100 for last year seems on its face to be a substantial reduction of 15c in the burdens of the people. Taking the special taxes and the increase in the assessment roll into consideration, the relief becomes more apparent than real. As a matter of fact just about the same amount of money will be raised from property taxes this year for carrying on the local government as was raised by the higher rate of last year. The difference in assessment of the current year as compared with 1909 will be seen from the following figures:

Total assessment of 1909	-	-	-	\$5,361,119
" " " " 1910	-	-	-	5,676,605

Increase for current year - - - - \$315,486

This increase comes largely from the enhanced value of mining property, rather than a general advance of all classes of realty. There is no disputing the fact that the mining industry has improved wonderfully during the past twelve months, and the increased output and generally bright outlook for the mines warranted the boost in valuation. Now the amount that should be raised from property taxes for the two years may be stated as follows:

1909	-	-	-	\$107,222
1910	-	-	-	104,907

Showing that the sum that will be actually turned into the treasury this year will be short of last year's revenue to the tune of \$2315. In this article we have taken no notice of the exemption of property within the corporate limits of the city of Jackson from the road and bridge fund levies because it is immaterial, inasmuch as the amount is represented by the city tax levy. Now of this \$2315 lopped off, over \$600 is due to the reduction of 1.1 cents in the state levy. The repeal of the bluejay and skunk bounty will come close toward making up the balance of the apparent saving. This bounty ordinance has been fought through the columns of the Ledger from the outset as impolitic and extravagant. The action of the board in wiping out this expense, even at the eleventh year, is simply an indorsement of the stand taken by this paper all along—and the only paper adverse to this bounty project.

To show the levy for the various funds for the two years, and the amount of revenue that will be raised for each fund, we submit the following table for purpose of comparison:

	1909	1910	Amount raised	1909	1910
State	-	36.4	35.3	\$19,514	\$20,030
Current expense	-	60.6	54.7	32,487	32,050
Hospital	-	22.0	22.0	11,794	12,488
Road	-	33.0	30.0	17,691	17,029
School	-	33.0	30.0	17,691	17,029
Special bridge	-	15.0	12.0	8,191	6,811
Advertising	-	-	01.0	-	567

Total - - - \$2.00 \$1.80

From this it will be seen that the current expense fund, with the bounty law eliminated, suffers no diminution. The school fund is cut down \$630. The road fund, which really includes the special bridge, is curtailed over \$2,000, but is still at the maximum. The hospital fund is increased \$700, and this is inexplicable in view of the conditions as we understand them. We will take an early opportunity of inquiring into this matter further. The creation of the advertising fund by a levy of one cent is a new departure. With the expenditure of the fund adequately safeguarded we do not believe any serious objection would be made. But it is reported that an understanding was reached that the money so raised was to be turned over to the chamber of commerce that was organized in Jackson some fifteen months ago, and that seems to have died in the process of birth from sheer inaction. An organization in name only, without meetings or active membership, is not apt to command confidence in the boosting line.

The articles in last week's Ledger on the discrimination in the county license business were something of an eye-opener to the people. No one is bold enough to uphold the supervisors in trying to give clearance papers on over \$500 back licenses, and a free permit for the future to John Ratto and at the same time instructing the collector to exact payment from another in the same line of business in the same town. The incident serves to show how liberal some can be when they themselves don't have to foot the bills. The notion of inviting newcomers to cast their lot among us, while at the same time handicapping a stranger just starting in business by the discrimination route, is comely and tragedy combined.

SCIENTIFIC MISCELLANY

Reported weekly for the Ledger

Measuring Bullet Flight—The Gas-Weighing Balance—Carrying Science Over the Empire—Sprayed Metal Films—A Powerful Motor—A Novel Lightning Arrestor—The Work of Smoke Using—The Century Clock—Waterproof Concrete.

The speed of rifle bullets can be determined by the improved method of Crantz with such precision that the error is estimated not to exceed one foot per second. A series of electric sparks at the rate of 5,000 per second lights up the bullet as it passes a horizontally pivoted rotating drum covered with a photographic film, and the distance apart of the images formed on the film show the bullet's velocity, the frequency of the spark and the rate of the drum's revolution being known. To make measurements easier, a glass rule divided into millimeters is photographed with the bullet at each spark. The reduction of speed by air friction is shown from the lessened space apart of images of the bullet on a second drum, and the lag of the image of the second drum gives the time of flight between the two. Special arrangement is made for synchronizing the drums and identifying the images on each. A pendulum contact-breaker closes the electric circuit that fires the rifle, and cuts off the current except during the minute fraction of a second in which the bullet is passing the drum.

The super-sensitive balance of Sir William Ramsay has a short beam and slender supports of silica and the tray is supported by a hair of silica. The instrument is kept in a special metallic case in an underground chamber. A tiny mirror reflects a point of light to a black scale six feet away, and the slightest deflection of the beam is made perceptible by movement of the light along the scale. The release from a tiny tube on the tray of xenon gas known to weigh only 1-7,000,000,000 of an ounce was registered on the scale. The limit of possible smallness in metal weights seems to be reached in Sir William's aluminum strand, finer than a hair, and 1-25 inch long, weighing 1-1,400,000 of an ounce.

The British Association for the Advancement of Science has met twice in Canada, and once in South Africa. Its 1914 meeting is to be held in Australia.

The new spraying process of depositing metal films, the invention of U. Schoop of Zurich, seems to be adapted to a wider range of applications than any other method of producing protective coatings. The electrolytic process coats iron and other metals with a covering of gold, silver, nickel, copper or zinc, and has come into extensive use for plate goods and for electrotypes used in printing. Iron is also protected from the atmosphere by galvanizing, or dipping into molten zinc, and by tinning in a bath of molten tin. Sherardizing is the improved process of Cowper-Coles, and gives a beautifully adherent deposit of zinc on heating iron articles in contact with zinc to about 200 deg. C., or more than 200 deg. below the melting point of zinc. In the Schoop process, the metal for deposit is liquefied and sprayed as a fine mist upon the surface to be coated. Compressed nitrogen or other inert gas may be used to produce the fine spray, and, while the molten metal must come from the nozzles at a temperature of several hundred degrees, the mist itself is found to be not hotter than 40 deg. to 60 deg. C. The projected particles strike with such force, however, that they are welded together into a homogeneous coating. Various metals may be deposited, and the coolness of the mist makes it practicable to coat inflammable substances, such as paper, wood, celluloid and wax. The coating is harder than films produced by rolling. Among numberless applications suggested are the coating of wooden aeroplane propellers and of balloon envelopes, it being possible to cover the latter with a gas-tight aluminum film scarcely more than 1-1000 of an inch thick.

The huge electric motor made at Stafford, Eng., weighs nearly 200 long tons, has a ventilated commutator 25 feet long and 2 feet in diameter, and with a direct current of 930 volts will yield 10,000 horse-power. The voltage can be raised to 14,000, when 15,000 horse-power will be developed at 90 revolutions per minute. The machine is designed for a 35-inch cogging and finishing mill, and for rolling 5,400 pound steel ingots into rails at one operation.

A carbundum block is the latest lightning arrestor applied to train-dispatching circuits. The resistance is enough to prevent leakage of the ordinary telegraphic current, but the charges induced by lightning pass freely to the ground.

PRETTIEST HATS IN JACKSON

Do you want a hat that will be the envy of your friends? You will find it at Miss Prosser's millinery store.

Hats for every occasion, for every style, or costume, for every figure, and face, for every fancy, and for every purse.

You are just as Welcome to Look as to Purchase

PROSSER'S MILLINERY STORE

84 Main Street, JACKSON

The era of smokeless cities is found by Peter Gfye, chief sanitary inspector of Glasgow, to be almost in sight. If the smoke came chiefly from factory chimneys, as has been supposed, remedies are already at hand, but experiments last year showed that the waste gases from 40 household chimneys equal in cubic feet those of an average factory chimney, and to prevent this loss some new fireplace or smokeless fuel must be awaited. The saving of factory smoke is an economical as well as sanitary gain. Complaint having been made of smoke from four boilers of the Glasgow Sewage Department, well-known smoke-preventing plant was applied to three of the boilers in October, 1908, and for comparison the same kind of fuel was used in the next seven months as had been used in the corresponding months of 1907 and 1908. The actual saving of money for the seven months was \$1,100. All smoke was prevented, all steam required was raised in three boilers instead of four, and there was an increase of 240,000,000 gallons in the sewage pumped. The smoke-consuming apparatus cost about \$1,000 for each boiler, requiring practically no repairs. A cheaper fuel is now used, and this increase is the saving.

Perhaps as near an approach to perpetual motion as is likely to be made in any mechanical device is the time-piece of a clockmaker of Burton-on-Trent. It was originally claimed that the clock would go 50 years without winding or other interference, but it is now asserted that it can be depended upon to run without interruption for a century. An electric current is obtained from two wires inserted in the earth and connected with the clock.

The little concrete house at the Brussels Exposition is reported to have been of especial interest on account of its practical submergence to test its waterproof qualities. It is on a hillside, and a large volume of water is turned upon its roof and flows continually down its sides, except at the entrance. No sign of leakage is to be seen. The concrete appears to be about four inches in thickness, and was treated with ceresit.

DEEDS, NOT WORDS.

Jackson People Have Absolute Proof of Deeds at Home

It's not words, but deeds that prove true merit.

The deeds of Doan's Kidney Pills, For Jackson kidney sufferers, Have made their local reputation. Proof lies in the testimony of Jackson people who have been cured to stay cured.

Mrs. Eliza Hobbs, Newmanville, Jackson, Cal., says: "I cheerfully re-endorse Doan's Kidney Pills and confirm all I said in their favor over two and a half years ago, when I publicly recommended them. My back was lame and painful and I was obliged to walk all stooped over. In the morning I was stiff and lame and I did not have a moment's freedom from pain. My ambition and energy left me, and I was distressed by headaches and dizzy spells. One of my friends had taken Doan's Kidney Pills with satisfactory results and on this person's advice, I was induced to try the remedy. I procured my supply from the City Pharmacy, and by the time I had taken the contents of two boxes, not a symptom of my trouble remained. I have been free from kidney complaint during the time that has since passed."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Card of Thanks.

We hereby tender our sincere thanks to all those who rendered assistance in any way during the last illness and funeral ceremonies of our beloved mother, Mrs. Phoebe Rinehart.

Basis of Confidence

The fact that so many prominent and distinguished business men are patrons of this bank is not in itself perhaps a sufficient reason for your becoming a patron of it until you have investigated and approved the merits of our claims to your confidence, but it is an item of sufficient importance to justify you in making an examination of our claims to merit. The basis of successful banking is capable management, and sound resources which beget public confidence. If we obtain your patronage we want your confidence to come with it.

SUTTER CREEK

Sept. 30—Miss Mary Lynch returned Wednesday evening, after a visit of six weeks in Sonoma county.

Gerald Johnson fell in the skating rink last Saturday, and sustained a broken arm.

Judge Rose is in Sacramento looking after business interests there.

John Allen and wife have returned to Sutter Creek to reside, after an absence of several years in San Francisco.

Miss Mary Prosser of Jackson and lady friends, were visitors in Sutter Creek the first part of the week.

Dr. Goodman met with an accident last Sunday while coming down the Bunker Hill grade in his auto, on his way to Amador City, the brake failed to work, and the doctor tried to run the machine on the bank to prevent it from running away. A young man was with him, and jumped out, as they thought safest. Dr. Goodman sustained a badly broken leg and ankle, and severe cuts. He was brought to his home here and Dr. Lynch of Amador City set the broken limb, and is also looking after the doctor's patients. The other occupant of the auto escaped injury.

Major Lathlean has removed his family to Nashville to reside.

Louis Canvin and bride returned Saturday, from a brief visit in San Francisco and Sacramento.

Last Friday forenoon at the blacksmith shop at Knight & Co's. foundry, Daniel Odgers jr. was the victim of a serious mishap caused by an explosion of a pipe, which had been plugged at both ends with sand, and placed in the forge, Daniel Odgers and V. W. Norton were busy with the work, and Mr Knight was near them when the explosion occurred. The plug flew out of the end of the pipe, the pipe struck Dan with terrible force, breaking his leg several inches above the knee. V. W. Norton was thrown to the ground, but escaped with slight injuries. Mr Knight escaped by moving away a few paces previous to the explosion. Daniel Odgers was taken to his home, where Dr. Goodman treated the broken limb, and he has the best of care and is getting along as well as could be expected.

"Can be depended upon" is an expression we all like to hear, and when it is used in connection with Chamberlain's colic, cholera and diarrhoea remedy it means that it never fails to cure diarrhoea, dysentery or bowel complaint. It is pleasant to take and equally valuable for children and adults. Sold by all dealers.

PINE GROVE

Sept. 29—Wm. G. Snyder, nominee for district attorney, paid us a visit on Wednesday of this week.

C. Bradshaw went to Jackson Tuesday to hear the address of Hiram Johnson.

Mrs L. Hansen of Berkeley is visiting her brothers, Ottis and Robert Rinehart.

Mrs K. Liversedge is visiting relatives in Sutter Creek this week.

Dr. P. B. Aiken is practicing dentistry in Pine Grove.

C. Berry was a visitor in Jackson Tuesday.

U. S. Gregory paid our town a visit on Wednesday.

A social dance is to be given in Pine Grove hall this week.

"Buela."

Receipt books, location blanks, deeds mortgages, promissory notes, etc. for sale also mining signals on cloth at Ledger office

Grand Ball

A social dance will be held in Love's hall tomorrow night, October 1st, the proceeds of which will go towards defraying the cost of new music, which the band contemplates purchasing.

The band is growing into a very creditable organization and it is trusted sufficient funds will be raised to assist the management in carrying out their desired intention.

Children Cry
FOR FLETCHER'S
CASTORIA

MARTELL

Sept. 27—Mr Violet and family will move shortly, as he has lost his position.

Frank Hultado has gone back to Sacramento to live.

Walter Dent of Oleta has been visiting friends here.

Miss Girty Leaves is visiting friends here.

Jess Vose passed through Martells on his way to the mountains one day last week.

Mrs H. Love, mother of Mrs D. Kerr, is quite ill at this writing.

Mr and Mrs Al Dufrene attended the baseball game at Sutter Creek Sunday.

Henry Fullen has been suffering from malaria.

Jack Coffman has moved his family into the old Ousby house at Kennedy Flat.

Mrs Webb Smith visited in Amador last Sunday.

A fire started in a bedroom in the residence of Mrs Della Fullen last Saturday night, creating quite an excitement. It started from the electric light resting against the wall paper.

Dick Hinton of Oleta visited relatives here last week.

Miss Mildred Oliver of Jackson spent Saturday and Sunday with Dorothy Kremmel.

Miss Dorothy Kremmel gave an informal party last Saturday evening to a number of friends. The evening was spent in games and music.

Mrs D. Robinson and Miss Mary Smith visited Amador one day last week.

What makes Jack Beach look so happy? Search Me.

AMADOR

Our next governor, Hiram W. Johnson, spent a few minutes in this city on the 27th.

Sept. 28—Mrs V. M. Warder of Oleta was a visitor here this week.

Amador is getting quite lively with three automobiles in town at one time.

Howard Dynan has gone to San Francisco for a few weeks' vacation.

Miss Smith from the city is visiting Mrs John Phipps jr. of this city.

Tom Burke of Plymouth is here clerking for the Chichizola Estate Co.

Mrs Mae Gordon returned from the hop fields on Sunday.

Marriage Licenses

A marriage license was issued Sept 28th to Jeff D. French and May Amelia Knapp, both of Ione, Amador county. The groom is 44, and the bride 34 years old—Sacramento Union.

If you haven't the time to exercise regularly, Doan's regulats will prevent constipation. They induce a mild, easy, healthful action of the bowels without griping. Ask your druggist for them. 25 cents.

Rancheria Dance

The old stone building on Rancheria hill, famed in early California history as the scene of the revels of the hardy Argonauts, resounded again last Saturday night to the notes of violins, and the feet of festive dancers.

The occasion was the celebration of the marriage of a true and noble son of the Golden West, Neil J. Stowers, and his charming bride, Mary Evans Stowers.

Meeting some distance away, the assembled friends to the merry accompaniment of old tin cans and kettles, marched to the home of the bride's mother. Here a reception was held by the bridal couple, who received the heartfelt wishes of all present for a long and happy married life. At 8 p. m., all adjourned to the stone building, where dancing continued until break of day. Seldom in recent years has such a delightful party taken place in this vicinity, and it was with genuine regret that the break of day, coming all too soon, sped the parting guests on their homeward way, we unite with the entire community in extending to a charming couple the congratulations of a happy marriage and the hope of a long and blissful life. Mr and Mrs Stowers, who have just returned from a honeymoon, during which they visited many of the principal cities of their native state, will hereafter make their home on the extensive ranch of the bridegroom near Rancheria. Fudge.

HOUSE DECORATION.

How to Paper the Walls in an Attractive Manner.

So many mistakes are made in the papering of walls that perhaps a few hints will not be out of place, as spring will soon be here, when repairs are being made everywhere.

Never paper the walls of a small room with large figures. No matter how pretty they are, the whole effect is likely to be crowded and very homely. If the room faces north, use a warm tone, never a blue or a gray or a green. Yellow is admirable in a dark room, and bright rose makes even a plain, dreary room look rich and inviting.

The fashion in dining rooms at present dispenses entirely with pictures. The walls are either covered with tapestry paper or done in paneled effects. Wallpapering is very much the fashion for those that can afford it.

If the chair covers and portieres are of figured material they require a plain paper, and vice versa. A plain paper is much better than a figured one for showing off paintings and engravings.

If the room is very high it is a good plan to do away with the frieze and to bring the ceiling tint down on the side walls at least eighteen inches, when the molding can be placed at the top of the wall paper proper.

The servants' rooms and the kitchen should be painted with a durable color, so that they can be scrubbed thoroughly with soap and water.

It is dangerous to trust the eye in matters of color; therefore the samples of upholstery materials should always be taken along when choosing the paper.

ASPARAGUS CULTIVATION.

How to Make a Bed of the Edible Young Shoots.

Asparagus is a perennial herb cultivated for its edible young shoots. It is a rugged plant and will thrive under adverse conditions, but to obtain the succulent stalks needed for culinary purposes well drained, rich soil is absolutely necessary. The soil should be well mixed with rotted manures containing much nitrogen and potash.

Prepare the bed by plowing or spading deeply, beginning the work early and looking after the drainage problem carefully. Plants at least one year old should be obtained for this bed. They can be raised from seed, which is sown outdoors in April in drills one foot apart, the seed being covered about one-half inch. Plants suitable for transplanting the following spring may be easily grown this way, or roots may be obtained from one to three years old.

Set the plants in the permanent bed in furrows eighteen inches apart, the plants being the same distance apart in each furrow. Be careful to spread the roots out naturally and set each plant on a little mound of earth in the furrow. Cover at first to a depth of a few inches, gradually filling in as the season advances. In the fall cut back all the stocks to a level with the ground for the winter.

In the second year loosen the soil by shallow spading. When the first shoots appear the rows may be hilled up somewhat. Cut sparingly until the third year, as the plants will be more productive afterward.

How to Overcome Oily Hair.

A young woman who has tried all sorts of remedies to keep the oil out of her hair says she gets best results by using a shampoo made from pure olive oil soap in which a pinch of soda has been mixed. Cut a cake of soap into a quart of boiling water to make thick jelly when cold. This is bottled and kept for future use. Before shampooing take a couple of spoonfuls of this jelly, mix it with a pinch of soda and rub it well into the scalp, which has first been wet with hot water. Another way to apply the shampoo mixture to the scalp is to part the hair in strands and rub it on with a toothbrush or small nailbrush. After the scalp and long hair have been well washed they should be rubbed vigorously with the finger tips and thoroughly rinsed.

How to Cook a Coon.

In preparing to cook a coon see that the kernels have been thoroughly cut out of the arm pits, groins and from under the root of the tail after it has been skinned. Coons' kernels are similar to musk glands. The carcass should be hung up in the frost for two or three days to freeze by night and thaw by day until properly tendered and then parboiled and baked. Some use a dressing of bread, sage and onions; others use oysters and crackers; still others use sweet potatoes or persimmons. All use a basting rich in butter, red pepper and vinegar. A coon beyond all other flesh absorbs any other flavor put with him, so sweet herbs are occasionally used. Not too fat nor too lean, he makes a fine repast for a hunter's supper.

How to Pack Blouses.

When carrying several blouses in a suit case place them all on a padded coat hanger so that the width of the blouses will run along the length of the suit case. In this way the crease from folding will not come at the waist line and will not be seen when the blouse is worn. The hanger will be found useful at the journey's end since the blouses will be hung on it during the visit.

How to Save the Stickpin.

If the end of a stick pin is under a lapel or inside the opening of the dress, anywhere that you can easily get at it, you will be in no danger of losing it if you will wind tightly about it a small sized rubber band.

ANTELOPE

Sept. 27—Edward Andrews was a visit or at Tiger saw mill last Saturday, and reports everything running nicely.

Miss Lilly Porter left for Pine Grove, where she will assist Mrs Crosby of that place.

Mr and Mrs Blakeley and daughter, passed here on their way to their mountain home.

Mr and Mrs South, and Miss South and niece have returned to their home in Ripon, San Joaquin county.

Miss Viola Hamilton and Ralph McKenzie spent Sunday in Volcano, with relatives and friends.

John McFadden and wife had a surprise given them on Friday last, when Dr. Stork invaded the home and left a bouncing baby girl.

There have been several droves of cattle pass here on their way from the mountains.

Mrs Johns of Tiger sawmill, spent Sunday in West Point.

Mr and Mrs Harker, who were visiting their son and wife in Nevada, returned Friday.

SUPERIOR COURT.

HON. JUDGE F. V. WOOD

Amador Keystone M Co vs California Consolidated Mines Co—Hearing of motion for appointment of receiver continued until September 33.

Camble vs California Consolidated M Co. By consent, set for trial September 30.

Emma Trebilcock vs Charles Trebilcock—Hearing on motion for alimony. Defendant ordered to pay plaintiff \$13 per month for her support in addition to the \$12 per month for support of minor child, first payment to be made October 15, also to pay \$8.50, costs of plaintiff in this action, and \$15 for attorney fees October 15, and \$20 November 15. Further hearing continued until October 18.

Agnes Templeton vs. William Templeton—Final decree of divorce granted plaintiff.

Edward Van Vranken vs Robert Jamerson et al—Bill of exceptions settled and allowed.

Central Trust Co vs W A Nevills—At request of defendant, matter continued until October 8.

F Garibaldi et al vs John B Grillo et al—Bill of exceptions settled, and plaintiff granted 10 days to engross same.

Estate of Henry Schroeder—Order made assigning the whole of estate for benefit of widow.

Estate of Geo P Bonnefoy—No appearance of parties. Continued until October 8.

Estate and guardianship of Thomas Gundry Trelease et al—Third annual account filed; October 1st set for hearing.

Guardianship of Borden Pardoe—Guardian files first annual account; October 7 set for hearing.

Estate of O Zanzucchi—Supplemental account filed; October 8 set for hearing.

New Cases.

Estate of G Badaracco—A Caminetti petitions for letters of administration; hearing set for October 2. Petition sets forth that deceased left real and personal property as follows: A tract of 400 acres near Jackson, valued at \$5000, 160 acres in Alpine county, valued at \$1000 Personal property comprising horses, cattle and farming implements valued at \$500. The total value does not exceed \$9000. The heirs are Mrs Barsi, living in Stockton, Carrie Badaracco and sister living on the Badaracco ranch, all daughters of deceased. Petitioner is a creditor of deceased.

Estate of Eliza J Culbert—C L Culbert petitions for letters of administration; October 8 set for hearing. The petition says deceased died on the 29th of May, 1910, leaving real estate consisting of NE 1/4 11-7-14, valued at \$1000.

Estate of William Mattley—Albert Mattley petitions for letters of administration; October 8 set for hearing. Deceased died on the 19th of September, 1910. The estate consists of a tract of land near Jackson, 240 acres, valued at \$2,500, and cattle and other livestock, \$623.98 cash in Amador county bank, etc., the total value is estimated not to exceed \$4000. The heirs are Frank Mattley of Oakland, Alfred M Mattley, of Portland, Oregon, Mary J Beauchemin of Sacramento, and Christina V Mattley of Sacramento, all children of deceased.

People vs George McAuliffe—Information filed charging defendant with crime of burglary.

The Hunting Nuisance

The farmers and stockmen between Jackson and Lancha Plana are determined to put a stop to hunting on their lands. Some months ago, when a number of imported game birds were turned loose within a few miles of Jackson, a game reserve was declared, prohibiting shooting on certain lands from Butte mountain to Stony creek. The effect of this was to throw sportsmen in their travels for game to other ranches outside the prescribed limits. Below Stony creek and clear to Lancha Plana, the hunters have become an intolerable nuisance, notwithstanding the fact that notices have been posted on most of the ranches forbidding hunting. Horses and cattle have been shot by intruders. One firm reports the loss of several hundred dollars in this way. The menace from grass fires has also been great. They have resolved that hunting must be stopped. An advertisement appears in this issue, signed by about all the ranchers and stockmen of the Jackson valley region, cautioning hunters against further trespass, and that trespassers will be prosecuted to utmost extent of the law. The landowners have combined in this movement, and are determined to make an example of the first one caught hunting on their premises. This action wipes off the map of the happy hunting grounds all the lands southwest of Jackson clear to the Mokelumne river, a distance of nine or ten miles.

A Man of Iron Nerve.

Indomitable will and tremendous energy are never found where stomach, liver, kidneys and bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life pills, the matchless regulators, for keen brain and strong body. 25 cents at Spagnoli's drug store.

JACKSON CITY ITEMS

A marriage license was issued last Saturday in favor of George Kosich, aged 26, and Katie Krevon, aged 19, both of Amador City. The prospective bride was a resident of Jackson for a number of years.

Piano tuning by Archie S. Moore, 37 Broadway, Jackson. Why send out of town when you have a resident tuner. aug 26

The Rev. T. H. Nicholas will return to Jackson this week, and will in conjunction with the new pastor, Rev. J. O. Duncan, take part in the services in the M. E. church next Sunday. Service will be held morning and evening. The Rev. Nicholas expects to leave for his new field at Marysville about the middle of next week.

Clean, well appointed rooms to rent at the Newman house, 104 Court street, Jackson. Call and inspect. a12 s12

J. C. Harding, expert piano tuner of the Baldwin Company, San Francisco, will be in Jackson about October 1st, 1910. Leave orders at the Globe hotel.

Say, did your ever stop to think about the value McGary is giving his customers.

Chas Trebilcock, defendant in a divorce suit, after being ordered by the court to pay alimony, etc., to his wife, drew the money coming to him from the Argonaut mine, and left for parts unknown.

My goodness, McGary's store is just loaded down with nice goods.

Itching piles provoke profanity, but profanity won't cure them. Doan's ointment cures itching, bleeding or protruding piles after years of suffering. At any drug store.

Most disfiguring skin eruptions, scrofula, pimples, rashes, etc., are due to impure blood. Burdock blood bitters is a cleansing blood tonic. Makes you clear-eyed, clear-brained, clear-skinned.

Don't waste your money buying plasters when you can get a bottle of Chamberlain's liniment for twenty-five cents. A piece of flannel dampened with this liniment is superior to any plaster for lame back, pains in the side and chest, and much cheaper. Sold by all dealers.

Your complexion as well as your temper is rendered miserable by a disordered liver. By taking Chamberlain's stomach and liver tablets you can improve both. Sold by all dealers.

Unclaimed Letters.

Letters remaining in the Jackson post office September 30, 1910:

Mr Carl, Miss F. Connors, Andrew Draskovic, H. B. Howell, Geo. C. Jones, Alfred Mersan, Miss Irene Myers, Achille Rosa, M. Simunovich.

Stops earache in two minutes; toothache or pain of burn or scald in five minutes; hoarseness, one hour; muscleache, two hours; sore throat, twelve hours—Dr. Thomas' Eclectic Oil, monarch over pain. Sold by all dealers.

Last Game of Season

Several Jackson baseball enthusiasts are working hard to get a strong nine together for a final game of the season on the Jackson grounds.

The players desire to have the Wingards from Sacramento as the opposing team. The Wingards have a fine record for this season, and would give Jackson a battle royal should she come up. The game will be held on Sunday, October 9th, and it is hoped will be patronized strong enough to clear expenses, which the Jackson business men have advanced as a guarantee of expenses.

MARRIED

MURPHY-SKELLY.—In Jackson, September 22, 1910, by Rev. Father Wm. Laffan, Lloyd T. Murphy, to Marguerite A. Skelly, both of Jackson.

Regular Republican Nominee for
SHERIFF AND TAX COLLECTOR
Of Amador County.

W. F. ENGLEBRIGHT
Regular Republican nominee for
MEMBER OF CONGRESS
1st Congressional District of California

Property Being Fixed

Mrs A. Genaro, who resides at 158 north Main street, is making improvements to her property that add greatly in beautifying that section of the city.

A large cement wall has been built in the front of the property, which serves as a bulkhead in preventing the water from the street, running in on her property, and which is very ornamental as well. The concrete is cast in rustic rock form, and stained red.

The Lash of a Flend

would have been about as welcome to A. Cooper of Oswego, N. Y., as a merciless lung-racking cough that defied all remedies for years. It was most troublesome at night," he writes, "nothing helped me till I used Dr. King's New Discovery which cured me completely. I never cough at night now." Millions know its matchless merit for stubborn colds, obstinate coughs, sore lungs, lagrippe, asthma, hemorrhage, croup, whooping cough, or hayfever. It relieves quickly and never fails to satisfy. A trial convinces. 50c, \$1.00. Trial bottle free. It's positively guaranteed by Spagnoli's drug store.

Gravel Mine Bonded

W. H. Greenhalgh has secured an option of purchase on the Hadley gravel mine, owned by Messrs. Geo. Hadley, W. Dent and J. Vose. It is situated several miles east of Oleta, and consists of 80 acres of placer held under location title. It is the intention to organize a company to operate the claim. A party of four from Jackson, namely, W. H. Greenhalgh, E. V. Zumbiel, R. I. Kerr, and R. Webb, also two from Sutter Creek—Edward Allen and H. Deacon, visited the property last Sunday. It is a drift proposition, and a tunnel has been driven several hundred feet into the lava capped gravel, the work thus done indicating that an extensive and rich gravel channel exists there. The gravel is of free character, and yields up its precious contents by the simple washing process. Some 1400 or 1500 car loads of pay gravel is on the dump ready for washing. Samples from different points in the breast of the several prospect drifts were taken out and washed while the visitors were there, and gold to the value of over \$3 was obtained, representing the output of ten pans of dirt. This result is considered something extraordinary. Prospecting operations will be prosecuted on a more definite method during the next three weeks, and upon the outcome will depend whether the deal will be consummated. It is practically a new gravel claim, being the first instance of the lava capped gold bearing channel being penetrated in this vicinity.

Chamberlain's colic, cholera and diarrhoea remedy is today the best known medicine in use for the relief and cure of bowel complaints. It cures griping, diarrhoea, dysentery, and should be taken at the first unnatural looseness of the bowels. It is equally valuable for children and adults. It always cures. Sold by all dealers.

Another Card

The political card of A. Caminetti appears in the proper column. He is running on the democratic ticket for re election as state senator. We hope he will not be elected, although we must admit he is a rustler in politics. As far back as 1877—33 years—we can remember him as running for office, and he has been a standing candidate ever since, and it must be confessed he has generally "got there." Caminetti should be wary of running once too often.

POLITICAL COMMENT

John Marchant

Republican candidate for assessor, needs no introduction to the people of this county. He is well known to all voters. He has served the people as a supervisor and also as assessor, and his official record in every public position he has filled is one of fairness to the public interests and fairness to all. The Ledger has nothing to say against the present incumbent of the assessor's office. We cannot concede that the welfare of the county would not be equally as well protected by the election of John Marchant as it has been during the last four years. The office requires a sound judgment in the valuation of property, a disposition to deal fairly and impartially with all interests, and a willingness to listen to the facts before deciding upon the assessable value of property. We have no faith in that policy that decides beforehand that property values should be increased all around, so as to secure a proportional lower tax rate. Disappointment has invariably followed whenever the assessment figures have been arbitrarily raised in that spirit, without a corresponding increase in actual values. The people have been called upon to pay more in actual cash than before whenever that policy has been tried. Any arbitrary jump in values should be discouraged as inimical and oppressive to all taxpayers.

In John Marchant everybody will get a square deal, after a careful and attentive examination of the facts.

H E Potter

Is the republican candidate for coroner and public administrator, and present incumbent of that office. As an official it cannot be disputed that he has attended faithfully to the duties of his position, devoting his time and energies thereto to an extent that deserves indorsement at the hands of the voters. He has been in office one term, and it is due to him, in recognition of his services, to reelect him. As an example of the scrupulousness with which he has met every call of duty, we may cite the Fremont mine disaster. The remains of the unfortunate victims were collected with care, and buried in neatly arranged graves in the Plymouth cemetery, and the mound marked as far as it was possible to identify the victims. He did not stop here, and was not content until by general subscription he raised sufficient money to secure an appropriate monument, inscribed with the names of those who perished in that mine horror—the greatest disaster that has marked the history of Amador county. This monument was dedicated only a few weeks ago. Mr Potter has earned, and we may add has received—the gratitude of all surviving relatives of that calamity, and of the public generally, for his noble actions in this matter. That he will be reelected to the position is a foregone conclusion.

Will Work Claim

Wm. Ross, a mining man, was in Jackson in the early part of the week, having business with the recorder's office. He has invested in gravel claims in Oleta district. He has secured over 300 acres of the Houdy ranches, for mining purposes. It is believed that a gold bearing deposit runs through this land under the lava cap. He has secured a ditch and water right, and intends to carry water to the claims and operate the coming season. Mr Ross has great faith in the gravel mining possibilities around Oleta. He has spent considerable time in a thorough investigation.

Goes to Marysville

A telegram was received from Rev. Thos. H. Nicholas, who closed his pastorate with the Methodist church a week ago, and who is at present attending the Methodist conference, which is in session at Pacific Grove, announcing that he has been assigned to a charge in Marysville, Uba county, to which place he will move his family immediately.

Word was also received that Rev. J. C. Duncan, formerly of Melrose, California, has been assigned to the local parish, and will take charge on Sunday next. The many friends of Rev. Nicholas will be pleased to learn of his new appointment to Marysville, which city will be able to provide him with the necessary high school advantages which the clergyman so desired for his children.

It Saved His Leg.

"All thought I'd lose my leg," writes J. A. Swensen, of Watertown, Wis. "Ten years of eczema, that 15 doctors could not cure, had at last laid me up. Then Bucklen's Arnica salve cured it, sound and well." Intallible for skin eruptions, eczema, salt rheum, boils, fever sores, burns, scalds, cuts and piles. 25 cents at Spagnoli's drug store.

Died at Hospital

Domenico Gazzera underwent a major operation at the county hospital on Monday morning last, and on Tuesday evening at 8 o'clock the patient died.

Gazzera had been feeble minded for the past several years, and was committed to the care of his mother, who resides on north Main street.

Of late he complained of suffering considerable pain, and as a result the operation was decided upon. He was removed to the hospital where Dr. Endicott assisted by Dr. Gail performed the operation. The abdomen was opened and much foreign matter removed, the appendix was also removed, other of the internal organs were found to be badly affected, and were given treatment. The victim, however, was too far beyond medical assistance to recover, and died without recovering from the ordeal of the operation.

Gazzera was laid to his final rest from his late residence on Stadel Ave., on Friday morning. Mass was conducted by Rev. Father Laffan of St. Patrick's church, interment in the Catholic cemetery.

Don't Break Down.

Severe strains on the vital organs, like strains on machinery, cause break-downs. You can't over-tax stomach, liver, kidneys, bowels or nerves without serious danger to your self. If you are weak or run down, or under strain of any kind, take Electric Bitters the matchless, tonic medicine. Mrs J. E. Van de Sande, of Kirkland, Ill., writes: "That I did not break down, while enduring a most severe strain, for three months, is due wholly to Electric Bitters." Use them and enjoy health and strength. Satisfaction positively guaranteed. 50 cents at Spagnoli's drug store

Returns from Hospital

Steve Match, who has been to the city since June 7th, receiving treatment for an affected ear, returned to Jackson on Sunday evening greatly improved. Match, who is a miner, suffered a severe attack of la grippe last spring, and the doctors who attended him claim this trouble was the result of his previous sickness. Match is a first cousin to Michael Rugne of this city.

Killed by the Cars.

Francis Sibole, son of Martin Sibole of Ione, was instantly killed on Thursday of last week near Merced, by being run over by a train. How the fatal mishap occurred is not clear. As far as we can learn the deceased, who was a young man of exemplary character, was employed by the railroad company. He was lying in the track with a train approaching. Whether he fell on the track through a dizzy spell, or fell accidentally and stunned is not known. As the train approached, he endeavored to get out of the way, but was too late, and was run over and killed. His father went to Merced Friday last, and brought the remains to Ione, and the funeral took place in that town on Sunday last, under the auspices of the local parlor of Native Sons, of which order deceased was a member.

Cache of Rich

Rock Discoved.

Recently some children living close to Sutter Creek happened in their playful mood to roll over a large boulder, and uncovered a quantity of quartz rock that had evidently been secreted there from some motive not commendable. The children took the rock or portions of it home, and upon examination by parties posted upon gold bearing ores it was pronounced bonanza rock, carrying very high values. The parents repaired to the spot where it was found, and upon further searching they stumbled across a lot more of the same stuff. Altogether the find yielded about \$400 in gold. It had evidently been hid away by high graders working in the mines, and for some unknown reason the parties were unable to convert it into coin. It is supposed that the ore came from the Central Eureka mine, when that property was in its bonanza days some years ago.

NOTICE FOR PUBLICATION.—01738

Department of the Interior,
U. S. Land Office at Sacramento,
California, August 15, 1910.
Notice is hereby given that Antonio Canonica, of Jackson, California, who on February 17, 1900, made H. E. No. 6913, for SW 1/4 of SW 1/4, Section 21, Township 6 N., Range 12 E., Mount Diablo Meridian, has filed notice of intention to make final five year proof, to establish claim to the land above described, before the U. S. Commissioner for Amador county, at his office in Jackson, Calif., on the 23rd day of September, 1910.
Claimant names as witnesses:
Mario Dotta, William Tam, C. Giovannotti, and J. N. Cuneo, all of Jackson, California. aul5

sinking fund at that time, and thereupon and before the tenth day of December following, give notice by public advertisement to be inserted twice a week for two weeks in two newspapers published in the city of San Francisco, and also in one newspaper published in the city of San Diego, and also in one newspaper published in the city of Los Angeles, stating the number of bonds so drawn, and the principal of said bonds will be paid on presentation to the treasurer on or before the second day of January following, and that from and after such last named date all interest upon bonds thus drawn shall cease, and it shall be the duty of the treasurer as soon as said bonds are drawn by lot are surrendered to him and paid to cancel the same, and the interest coupons thereon, and each year, beginning with the year nineteen hundred and fifty, the said treasurer shall, in the manner aforesaid, proceed to draw by lot such an amount of bonds as shall be requisite to exhaust as nearly as may be the amount in said sinking fund, and proceed in the manner hereinbefore stated. After the payment of all said bonds, the surplus or balance remaining in said sinking fund, if any there be, shall forthwith be paid into the San Diego harbor improvement fund, by the treasurer of the respective district, by lot, as aforesaid, and also at the maturity of said bonds, said treasurer shall sell the United States bonds or other bonds then in said sinking fund, at governing market rates, after advertising the sale thereof in the manner hereinbefore provided for the sale of bonds hereby authorized to be issued, and shall use the proceeds for the payment of such bonds as may be drawn by lot, and at the maturity of said bonds outstanding shall pay and redeem said matured outstanding bonds out of said moneys in said sinking fund. The payment of said bonds on controller's warrants duly drawn for that purpose.

SEC. 6. The state controller and the state treasurer shall keep full and particular account and record of all their proceedings under this act, and they shall transmit to the governor an abstract of all such proceedings thereunder, with an annual report, to be by the governor laid before the legislature biennially; and all books and papers pertaining to the matter provided for in this act shall at all times be open to the inspection of any party interested, or the governor, or the attorney-general, or a committee of either branch of the legislature, or a joint committee of both, or any citizen of the state.

SEC. 7. It shall be the duty of the state treasurer to pay the interest on said bonds when the same falls due, out of the sinking fund provided for in this act, on controller's warrants duly drawn for that purpose.

SEC. 8. This act, if adopted by the people, shall take effect on the thirty-first day of December, nineteen hundred and ten, as to all its provisions, except those relating to and necessary for its submission to the people, and for returning, canvassing and proclaiming the votes, and as to said excepted provisions this act shall take effect immediately.

SEC. 9. This act shall be submitted to the people of the state of California for their ratification at the next general election, to be held in the month of November, nineteen hundred and ten, and all ballots at said election shall have printed thereon, and at the end thereof, the words, "For the San Diego seawall act," and in a separate line under the same words, "Against the San Diego seawall act," and opposite said lines there shall be left spaces in which the voters may make or stamp a cross to indicate whether they vote for or against said act, and those voting for said act shall do so by placing a cross opposite the words "For the San Diego seawall act," and all those voting against the said act shall do so by placing a cross opposite the words "Against the San Diego seawall act." The governor of this state shall include the submission of this act to the people, as aforesaid, in his proclamation calling for said general election.

SEC. 10. The votes cast for or against this act shall be counted, retailed and canvassed and declared in the same manner and subject to the same rules as votes cast for state officers; and if it appear that said act shall have received a majority of all the votes cast for and against it at said election, as aforesaid, then the same shall have effect as herebefore provided, and shall be irrevocable until the principal and interest of the liabilities herein created shall be paid and discharged, and the governor shall make proclamation thereof; but if a majority of the votes cast as aforesaid are against this act then the same shall be and become void.

SEC. 11. It shall be the duty of the secretary of state to have this act published in at least one newspaper in each county, or city and county, if one be published therein, throughout this state, for three months next preceding the general election to be held in the month of November, nineteen hundred and ten, the costs of publication shall be paid out of the San Diego harbor improvement fund, on controller's warrants duly drawn for that purpose.

SEC. 12. The state controller and state treasurer are hereby directed to transfer from any moneys paid into the San Diego seawall fund under the provisions of this act to the general fund of the state of California, any and all sums of money theretofore transferred from said general fund to the San Diego seawall fund, together with interest on said moneys from the date of transfer at the rate of four per cent per annum.

SEC. 13. This act may be known and cited as the "San Diego seawall act of 1909."

W. R. PORTER,
President of the Senate.
J. A. STANTON,
Speaker of the Assembly.
J. N. GILBERT, Governor.
Endorsed: Filed in the office of the Secretary of State the 7th day of April, A. D. 1909, at 12:05 o'clock p. m. C. C. Curry, Secretary of State.
By J. Hoesch, Deputy. Jy 29-15

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

The Kind You Have Always Bought

In Use For Over 30 Years.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

FROM OUR EXCHANGES

John Sauve and Frank Bernardi of Mokelumne Hill gave a demonstration here to-day, Friday, of their new safety fuse or spitter. We have only space for a brief account of this invention, which is likely to be widely adopted and be the means of greatly reducing the accident list in mines. In brief the invention does away with the "last man in the shaft," to spit the fuse and take chances of getting hoisted out before the explosion. The invention consists of a small device which is attached to the fuse just above the cap and which does the spitting, the length of fuse between the cap and the device regulates the time of firing. The device is connected by small wires that lead to an electric battery, that may be located on the surface or in a level, where the operator can in perfect safety, with a single touch spit all the fuses, the charges exploding as in any case, according to the length of the fuse. This little device about an inch and a half in length, and but little larger than the inclosed fuse to which it fits, will work under water with equal facility as in dry rock. The interval between the shots can be easily regulated so that counting is possible or they can all be made to go at once. The main feature is that all the fuses can be spitted at once by the operator, who, may be any distance away in a position of perfect safety.—Prospect

FROM OUR EXCHANGES

C. W. Brown, a ditch-tender for the Mokelumne River Power and Water Company, has quite a record as a rattlesnake exterminator. During the past summer he has secured the scalps and rattles of fourteen of the reptiles. Recently in hunting for a bee-tree he felt something strike his leg, and upon investigation found a rattler hanging to his pants by one fang. During a forest fire recently he found a couple of rattlesnakes entwined about each other in mortal combat, and he got them both with one stroke of his hoe. Last winter while burning brush, he found an entire colony of snakes in a log, having entered through a knothole.—Citizen.

FROM OUR EXCHANGES

A young man, Geo. McAuliffe, who burglarized William's drug store a couple of weeks ago, was brought down from Jackson by sheriff Gregory last Saturday and had his preliminary examination before justice Gartin. He was held to the superior court for trial on the charge with bail fixed at \$1000, which he was unable to furnish, and he was remanded to the custody of sheriff Gregory.—Echo.

FROM OUR EXCHANGES

The local lodge of Rebekahs' tendered Mrs. Stanley James a surprise party on Friday evening, in the shape of a kitchen shower. Seventeen members were in the party, and every imaginable kind of kitchen utensils were presented to the sister, who has recently become a bride. Refreshments were served, and music rendered, and the party voted the occasion a most enjoyable event.

FROM OUR EXCHANGES

Mrs. Chester O'Neil, wife of Chester O'Neil, formerly of Jackson, passed away at the Sutter Creek sanitarium, on Saturday at midnight, as the result of a severe attack of typhoid fever. The deceased was a bride of six months, and only 17 years of age. She was a native of San Andreas, Calaveras county, where her remains were taken and interred on Monday last.

FROM OUR EXCHANGES

O'Neil and his young wife had taken up a homestead at Railroad Flat, several months ago, and were getting along nicely when sickness overtook Mrs. O'Neil. She was able to be about, however, and nothing serious was anticipated, the husband visiting Jackson and obtaining what necessary medical attention he thought was proper. The condition grew worse, and it was finally decided to remove her to the sanitarium. After two days treatment with Dr. Goodman, hopes were entertained for her recovery, but a relapse occurred, and she died very suddenly.

FROM OUR EXCHANGES

Florence Dufrene, the eight year old daughter of Jack Dufrene, who resides near the Copper mines, outside of Ione, was hastily brought to Jackson on Sunday evening, and placed in the county hospital, where she underwent an immediate operation for appendicitis. The little girl suffered intense pain and the operation was considered the one thing to save her life. Dr. Endicott assisted by Dr. Gall performed the operation, which is reported in every way a complete success. The patient's condition is fine and her recovery will only be a matter of time.

Tariff Revision

The sound protectionist is no opponent of tariff revision at the proper time, and has always approved such changes in schedules as conditions seem to warrant. But he never has and he never will join in the cry for tariff revision in the interest of foreign as against home industries, and that is what very much of the demand for lower duties means. A case directly in point is furnished by the present situation in the cotton manufacturing industry. Owing to the high price of raw material, due partly to anticipated shortage in the cotton crop and largely to speculation, mills are operating on short time or suspending entirely for a season. There is not a cent of duty on cotton, and the rates on cotton goods have been almost unchanged. How can the responsibility for the trouble in the cotton-spinning and cotton-cloth-making industries be laid to the tariff? Fibre and Fabric suggests this question when it says.

We find that the years under the former tariff were the most prosperous in the history of our country. Labor was fully employed, and wages advanced ten to twenty per cent. The present tariff is almost identical, so far as the wool and cotton schedules are concerned, yet the people are being urged to send men to Washington to deliberately open the way for foreign manufacturers to serve America the same as Canada textile mills and throw thousands of operatives out of their chosen occupations permanently. It is well to have tariff revision when needed, but a revision that will put American manufacturers out of business and American wage-earners out of work to aid foreigners is not the kind to commend itself to the thoughtful American citizen.—Troy Times.

Tariff Revision

Cloudburst at Yosemite

Presumably from a heavy cloudburst back in the high Sierra September 14, the Yosemite falls, which have been dry for several weeks, sprung a sudden and unexpected leak this evening at 6:45 o'clock when the advance wall of a raging torrent of water leaped over the falls landing twenty-six hundred feet below with a roar that was heard for miles, bringing the diners at Sentinel hotel, near the foot of the falls, to their feet in fright. For two hours the volume of water pouring over the falls exceeded all past records, and has now settled back to the average springtime run. Why the cause is not known as yet, the sudden flow is thought to be due to a cloudburst although some advance the theory that a giant slide back in the mountains dammed up a canyon and formed a lake, the waters being forced over the falls.

JOHNSON GETS FINE WELCOME

Continued from Page 1

semblage, convened to listen to a distinguished California citizen, His stay in Jackson is necessarily limited, so without wasting any time in preliminaries, I will proceed to introduce to you the gentleman whom you have all come to see and hear; the man who for the next four years is destined to be the foremost citizen of this great empire state of the Pacific coast. It is with pleasure that I now introduce and present to you the Hon Hiram W. Johnson, the next governor of California.

Ladies and gentlemen, I thank you for the kind hospitality shown me this afternoon, in coming here to listen to what I have to say about our present campaign.

You are showing your appreciation by your presence here on this occasion, and I wish to tell you I feel very grateful and from the bottom of my heart I wish to express to you my heartfelt regards.

I very much regret that I was unable to hold a night meeting in your city, and am sorry I could not visit you before, but pressing exigencies rendered it utterly impossible. The state central committee made the schedule, and I was compelled to adhere strictly to it.

I began campaigning six months ago, because of the fact that many of us thought that there was much important work to be done. We thought that the direct primary election law might help the people select their own candidates, and so rid the state of much corrupt politics.

Last March, setting our teeth to the task, we began to preach doctrines and policies that would enable us to restore to the people their rights, and assist this glorious state in which I was born, and the party with which I am affiliated, in accomplishing many undertakings which are greatly needed.

We began advocating our policies, and found that throughout the state there was a great sympathetic feeling with us.

So great was the faith of our adherents, that on the 16th of August, 102,000 votes were piled up for our cause. I take no part of the credit, and I trust you will not consider me as trying to bring to myself one particle of credit. But that vote, tremendous and emphatic as it was, means to you and me a chance to again come into the rights of that which belongs to us. It is now up to the people to say whether the republican or democratic party will rid the state of its bosses and grafters.

The republican party decreed that there could be but one main issue, and that issue I am fighting for today.

The sole object of this campaign was, and is now, to make clear to you, that upon this one great problem hinges much success for our state, and the republican party as well.

There will be no hesitation or vacillation with the members of our party in fighting this battle for our rights, and we are going to struggle until we have the government of this state back in full control of the people, and then we will kick out Wm. F. Herrin and the Southern Pacific railroad company. I am telling every one that we will not hesitate nor compromise in our duty. We shall not reach out for unpopular votes, nor swerve in any way from the original lines marked out at the opening of the campaign. We will follow our policies until we are successful, regardless of any ridicule or scorn that may be hurled at us. Should Bell be elected, I trust he will follow out the policies he claims to be following.

There is one subject I wish to speak about, which is causing considerable comment in the opposite ranks. It is the square deal proposition. They claim that if they are successful, they will accord the railroad companies a square deal on the one hand and the people a square deal on the other hand.

Now to be sure, a square deal must be given to the public at all times. Why this is our very policy, and no just man could act otherwise than to grant to all the full benefit of their rights. You need not waste time or efforts in arguing the square deal proposition, for the Southern Pacific railroad company have always taken the square deal and more too, and various means are being advised at the present time to give such people as Jim Hill and other railroad officials a square deal. I do not hesitate to say it will be found in nearly every instance, that the square deal pretense is nothing more than a scheme framed up to fake the people and enrich the railroads.

The character of this contest is not planned in such a way that we will be obliged to go out and tear up railroad tracks or destroy rolling stock. I shall not bother any honestly vested business interests. But we shall say to the Southern Pacific railroad company, "carry on your business in a legitimate way, and we will not disturb you," but we will also tell Herrin and the Southern Pacific, "you must keep your dirty hands out of politics, or we will kick you out."

My constructive policies as outlined seem quite obvious and unnecessary for lengthy discussion.

The important state features of my policies are as follows: I believe in the election of United States senators by direct vote of the people. At present this important part of the government is ruled by the state legislature. I confess it will be high impossible for us to change our constitutional laws, but, with the direct primary law, we are going to change the law so as to be able to elect our United States senators by direct vote.

I believe in the Australian ballot system, I firmly advocate Asiatic exclusion, and I shall fight hard for the direct legislative law. That this state can be governed properly there is no question in my mind, and I believe the people should have some right to discharge all incompetent and corrupt officials, and fire them out of office. This is the recall act that receives

so much prominence in our platform. I shall strive hard to see an adequate employers' liability law. Germany and France take care of their injured employees, and several of our states have already adopted such laws that will make liable the company for any risk that the employee might be subject to, and make the employer responsible for negligence that might cause injury to any employee.

Now as to our conservatism, Pinchot and Garfield blazed the path way in which we are traveling. I absolutely maintain that all men should stand in absolute equality before the law, and most emphatically I endorse a non-partisan judiciary, so that judges shall never be compelled to be responsible to any clique or set of bosses, for favors that may be needed, or that may be forced upon them, rendering them unfit to pass sentence that would otherwise receive different consideration. County judges as a rule are not facing this problem, as seriously as do the judiciary candidates in the larger cities.

Many minor things have been adopted in our platform, of which you will be able to learn through the literature now being prepared, and which will be spread among you shortly.

All good citizens, regardless of party politics, certainly wish to see some of my policies carried out. It goes without saying, that the next legislature of the state of California will surely be overwhelmingly republican and the conclusion is immediately reached that if my reforms are to be carried out, the party which is dominating must do it, the party with the greatest strength surely must be looked to for successful reform. I do not wish to be misunderstood, and have you think that I imagine all political virtues lie within our own party ranks. Oh no, the democratic party has many virtues that are illustrious, but the problem which we are facing is, where can we best have these undertakings accomplished?

I tell you friends, the aspect of California republicanism was never brighter than at the present time. Never in the history of the state have we held such a prominent position in the political field as we now hold. We are now on the political map of the nation, our platform was wired all over the United States, and received the heartiest approval in every state in the union. We are in the foreground of the fighting progressive states of the union, with our demands, which are: government by the people, and not government to satisfy the interests.

La Follette pioneered the policies in the Middle West, and today we are marching side by side with New York's peerless leader, a man who has principles and who expressed his policies fearlessly in what is termed insurgency; a man who made it possible to make the insurgency fight in this state a crowning success, a man who is loved and honored by all, Theodore Roosevelt. Now whether you call it insurgency, or whatever other name you care to invent for it, we are simply demanding the rights for the people, and I assure you we will be successful in our fight. Insurgency really stands for true and honest purposes, and I claim it is our duty to fight the monopolies as long as they attempt to run our government.

The interest of our government must be considered before any special interests, the struggle of the freeman must be heard before the clamor of corporations for power.

I am in this fight to help these little ones assembled here, by helping to give them an equal footing, an equal opportunity with that of the rich man, in preparing for them a future such as they will be compelled to face. This is our aim and for this purpose I am struggling now.

We appeal to you in this fight, that all who desire to see a reform movement carried through successfully, fall in and help us defeat the tyrants and grafters the machine men and the Southern Pacific.

I ask you men and you women to do all in your power to help us give back to the people of this glorious state that which is their own, Goodby.

At the conclusion of the address, Judge Wood invited the large assemblage to come forward and shake hands with the next governor. But he added, before you do it, I ask you all to give three cheers for Hiram W. Johnson. Three cheers were given, and the crowd then began surging on to the hotel porch where a hearty handshake was given every extended hand, and a formal introduction made by Dr. A. M. Gall, who was standing to the side of the speaker.

The band played the Star Spangled Banner, which concluded the meeting. At 2:30 p. m., the party again seated themselves in the autos, and the run for Mokelumne Hill was begun. The party spent the night at Angels Camp.

The crowd assembled, to hear the speaker was estimated to be between five and six hundred all told. The schools of the city were dismissed for the occasion, and the pupils marched from the building to the seats arranged in the street in front of the National hotel.

This was without a doubt an excellent move on the part of the school principal, as it gave his pupils a chance of hearing one of the most brilliant speakers of which the state can boast.

Warning to Hunters

All parties are cautioned not to trespass for hunting purposes on the lands of the undersigned landowners in Jackson Valley and the neighborhood of Stony Creek. All such trespasses after this notice will be prosecuted to the full extent of the law.

Grass Fire

A grass fire that threatened damage to fences, etc., was started on Saturday afternoon, by two Jackson juveniles, in a tract of land belonging to Detert, located along the Sutter Creek road, near the Jackson toll house site. An alarm was sent in, and many people hastened to the scene, and the fire was extinguished before any damage was done.

Deafness Can not be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars or any case of Deafness (caused by catarrh), that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Hall's Family Pills are the best

Candidates Meet

A meeting of democratic candidates was held in the sheriff's office on Monday afternoon, and the schedule for speaking definitely arranged. The matter, which seemed to be a complicated affair, owing to conflicting dates which the democrats desired falling on nights in which the republican meetings were to be held at various towns, was straightened out, and the delegates all urged to be on hand on the opening night.

Notice to Creditors.

In the superior court of Amador county, state of California.
Estate of William E. Kellogg, deceased.

Notice is hereby given by the undersigned administratrix of the estate of William E. Kellogg, deceased, to the creditors of and all persons having claims against the said deceased, to exhibit them, with the necessary vouchers, within four months after the first publication of this notice to the said administratrix at the office of Robert C. Bole, 12 Main street, in the city of Jackson, county of Amador, state of California, the same being the place selected for the transaction of the business of said estate, in said Amador county.

Dated August 22, 1910.

Base Ball Enjoyed

Sutter Creek and Placerville baseball teams crossed bats on the Sutter diamond last Sunday, and Placerville was defeated to the tune of 9 to 3.

Sutter Creek received a victory which Jackson can feel proud of, as five of the nine players were from the county seat, and wore Jackson uniforms.

Beding Boro pitched for the Sutter team, and it can be safely said his balls are growing more puzzlesome each game he plays. His ball is easily hit, but its peculiar twirl when in contact with the bat, becomes dead, and seldom is struck into the outfield. A large buss carrying 14 Jackson fans went over to the game, and every available carriage also journeyed to the busy town for a good game of ball.

Among Jackson players in the game were Love, is short stop, who received a bad jolt on the neck while sliding to a base. Skelly, who played third base, also received a bad injury to a toe on the right foot; Will Boro, first base, Walter Steel, right field. What a pity that Jackson is not making a better showing on her own diamond, which is one of the best grounds in the foothills.

The new manager is everything that can be desired, but the team has been so badly managed by its old regime that it will take a great deal of hard work to again place Jackson on the good ball line.

That the players are here, there is no question. Cromer is always reliable, and as good a player as will ever visit this section for first base. Love is excellent material for second base or short stop. Brown as catcher, Steele, Brown, Coster as pitcher; Skelly, Jackson's popular third baseman on the third sack, Arditt, Fortner, the Vela boys can be placed in almost any position on the team.

Jackson certainly should hold in with the new manager, who has the backbone to make a strong team pay well, and furnish good games.

NOTICE TO Tax Payers

Office of City Tax Collector
City of Jackson,
County of Amador,
State of California

Notice is hereby given to the taxpayers of the City of Jackson, that I, F. V. Sanguinetti, City Tax Collector of the City of Jackson, did on the 7th day of September, 1910, receive from the City Clerk and ex-officio Assessor of the said City of Jackson, the original Assessment book for the year 1910, containing a list of the persons assessed for real and personal property, and the amount of city taxes due thereon for said year.

That the whole of said taxes are now due and payable, and payment may be made to me between the hours of 9 a. m. and 5 p. m., at the office of the City Tax Collector, in the Marella Building, No 8 Court street, in the City of Jackson, California.

The said taxes will be

Delinquent on the First Thursday of November,
1910, at 6 o'clock p. m., and unless paid prior thereto Five per Cent will be added to the amount thereof.

Taxes not paid according to law will be delinquent, and five per cent and other costs will be added thereto.

F. V. SANGUINETTI,
Tax Collector of the City of Jackson,
Dated September 7, 1910.

Not Coughing Today?

Yet you may cough tomorrow! Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine at hand. Your doctor's approval of its use will certainly set all doubt at rest. Do as he says. He knows. No alcohol in this cough medicine. J. C. Ayer Co., Lowell, Mass.

Robust health is a great safeguard against attacks of throat and lung troubles, but constipation will destroy the best of health. Ask your doctor about Ayer's Pills.

Thousands of Dollars Given Away in Prizes By Eastern Piano Factories In a Great 30 Puzzle Contest

We want everyone interested in pianos or player pianos to enter this contest. Be sure and enter; yours may be the answer that secures one of the big prizes.

THE GREAT 30 PUZZLE

Can you solve it? It can be done. The puzzle is to arrange the nine numbers 2, 4, 6, 8, 10, 12, 14, 16, 18, so that added together, in any direction | right or left, up or down, or diagonally, the sum will be 30.

INFORMATION.

Read this Carefully.

Send your answer, together with your name, and address, and state if you are intending to buy a piano or not, and if possible send names and correct addresses of one or more people whom you have reason to believe intend purchasing a piano. Neatness as well as correctness will be considered in awarding prizes.

No employee of this store or member of his or her family, or winner of prizes in previous contests will be eligible as contestants.

All contestants must abide by the decision of the judges.

Contest closes at 4 p. m. October 5th, 1910.

EACH CONTESTANT WILL RECEIVE AN AWARD

Purchase checks will be awarded to each contestant according to merit in value from \$137 down to \$17; also a book of old favorite

songs will be awarded to each contestants.

These purchase checks are as good as cash, and will be accepted as part payment on the purchase of any new piano in the stock carried by McNeil & Co. at any of their stores.

Send your name, address and information to

Contest Dept., McNeil & Co. Elks Building
STOCKTON, CALIFORNIA
